

CES Cocoa Bean Processing Complete Line

China Euro Services CES based in China is a professional procurement company, with offices in Brussels, Hong Kong and China (Shenzhen), specialized in the supply of agro processing and agriculture complete turnkey machinery solutions for Africa, such as complete cocoa bean processing line, that can produce chocolate powder, cacao butter, and cacao liquor among other products.

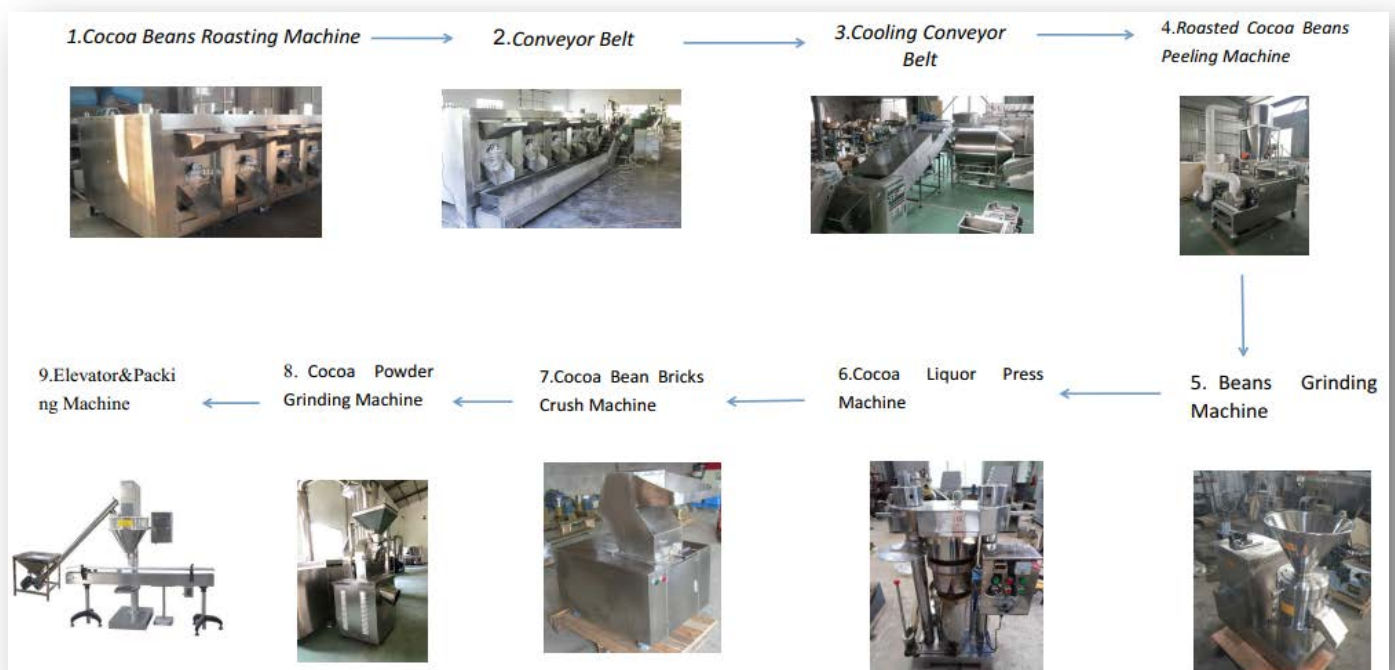

In partnership with quality manufacturer, China Euro Services provides complete cocoa bean processing machinery, such as roaster, grinder and packaging machinery to cocoa producers across Africa. We provide full customized capacity machinery 300kg/h, 500kg/h with all accessories for turnkey solution.

We have strong track record in procurement and installation of flour mills, coffee roasters and cocoa processing complete plant across Africa.

▪ *Why Choose us:*

- A complete turnkey solution from procurement, manufacturing to installation of machinery in Africa
- Our QC team will monitor the production, and conduct thorough inspection before shipment.
- Installation and after sales services, provided by our experienced Africa based technical team
- Professional Service provided by our experienced multilingual team (English, French and Chinese)
- Professional and multilingual after sales support, for training, installation and spare parts.

• Cocoa processing line flow chart:

• Production steps of coca processing line:

- Automatic cocoa bean roasting machine is versatile for processing cocoa nuts and beans
- The cocoa bean peeling machine is special equipment for processing cocoa beans and peanuts. This machine is vacuum type, it can suck the skin and red peel of cocoa beans.

- After peeling, it is the cocoa paste grinding machine to grind the cocoa beans into paste like structure.
- From this process, the materials are sent to different lines, depending on the final product required.

One more process to make chocolate powder, plus two more processes to produce chocolate spread, while for chocolate bars there are at least 5 different steps before getting chocolate.
